SUMMARY

Results-driven Software Engineer specializing in scalable cloud systems, high-performance mobile applications, and AI tools. Proven track record of optimizing performance for high-traffic environments, with core expertise in Node.js, Go, React Native, and GCP.

EDUCATION

Parul University

Bachelor of Technology in Computer Science & Engineering; CGPA: 7.24

Vadodara, Gujarat

Aug 2023 – Expected 2027

EXPERIENCE

Software Engineer Intern

Parul University

Feb 2025 – Present

Vadodara, Gujarat

• TechExpo Review Platform

- Architected a non-blocking backend using **Node.js**, **PostgreSQL**, **Nginx**, and **PM2** on **GCP**.
- Scaled system to handle **1 Lakh+ review writes** in under 24 hours and **18,000+ active users** with zero downtime.
- Optimized PostgreSQL indexing to achieve sub-100ms response times for real-time analytics across 250+ teams.

• India-EMS (ICMR National R&D Project)

- Selected as a Core Engineer for a multi-university emergency response system to digitize healthcare workflows.
- Built an **offline-first mobile sync layer** using React Native, ensuring **100% data reliability** in low-connectivity rural areas.
- Developed critical Hub-and-Spoke systems (CodeEMR Hub and Spoke) used by medical professionals for real-time emergency case management and inter-facility referrals.

PROJECTS

Sonet - AI Desktop Assistant | Python, PySide6, Qwen LLM

Feb 2026

- Developed a native Linux AI assistant using **PySide6 (Qt)**, integrated with **Qwen LLM** for local inference.
- Implemented **RAG (Retrieval-Augmented Generation)** via real-time web scraping to enhance response accuracy.
- Engineered an **async multi-threaded architecture** to handle UI rendering and AI processing simultaneously.

SoneT - Modern Code Editor | Go, Wails, React

Nov 2025 – Jan 2026

- Built a cross-platform (Linux, macOS, Windows) code editor using **Go and Wails**, achieving **<800ms startup**.
- Engineered a lightweight architecture supporting **20+ languages**, optimized for low memory usage (<100MB RAM).

TECHNICAL SKILLS

Languages & Databases: Go, C++, Python, Swift, SQL, Postgres

DevOps & Cloud: GCP, Docker, Nginx, K8s, Git

Operating Systems: Linux (Arch/RHEL), macOS

Frameworks: React Native, Wails, SwiftUI, Node.js

ACHIEVEMENTS & CERTIFICATIONS

Awards: Grand Finalist at Odoo x SNS Coimbatore, **Top 45 Teams** at Vadodara Hackathon 5.0

Certifications: Qualcomm AI Upskilling (Technical Foundation), Apple App Development with Swift (Associate)

HackerRank: Problem Solving (Intermediate) & (Basic), Frontend Developer (React), Java (Basic)

LEADERSHIP & EXTRACURRICULAR

Founding Lead - Swift Coding Club

Parul University

Dec 2025 – Present

Vadodara, Gujarat

- Established the university's first official iOS community, empowering students with modern **Swift and SwiftUI** skills.
- Facilitated international collaboration with the **Swift Coding Club Thailand** and mentored students to build and deploy.
